

Work and Study Program

This program offers students two benefits: Improving their English and gaining valuable paid work experience overseas. This is one of the best ways to improve their English and their résumés at the same time. By taking this program, they will have the opportunity to both extend their language and career horizons, and improve their chances in their home countries' job market. From coaching during the English portion of their course, to the orientation they receive before their work-study, we take care in placing them with a work-study that is right for them.

Students enrolling in the Work & Study Program will have 12, 16, 24 or 32 weeks of English language training in our Specialized Intensive or Specialized Super-Intensive Course followed by a paid work experience of equal length.
